

CITY MANGERS MONTHLY REPORT FOR JANUARY

I have had numerous phone conversations with Betsey Streuli, staff attorney ODEQ. Nothing major, just changing some dates along with getting the new mayors name on the right pages. Should have the final version Monday, so it can be ready to sign Wed. night.

As you might have heard there was a small fire on the golf course last week. Our landpride mower caught fire and was destroyed. No, we did not have insurance on this machine. This mower was purchased over ten years ago, along with more equipment that is much older than this would not be practical to have insurance on all of our equipment. We do insure some new equipment such as the new truckster and sprayer, as with the trash truck, work pickup, police suv and such.

You can drive around on the back side of city hall and notice the new metal roof going up. The plumbing should get started this week; the electrician has started his work also. Came back with a big load of metal roof and supplies from Home Depot last week, Jon Heavener met me there and was a big help this project. We need to be sure and drop by this week while he will be here working and tell him how much greatly appreciated he and his brother has been so far.

The city crew has been kept very busy with working at the sewer plant, ice, pot holes and many more jobs that goes on in a days or nights work.

If you have any questions regarding this report or anything else, please call me.
